

Dear Sirs:

I have recently been reading about Sinclair Broadcasting and its decision to have its stations air an anti-Kerry documentary just before the election. I am concerned that Sinclair Broadcasting is abusing its stewardship of airwaves that belong to all of us. I hope you will review their actions when it comes time for them to renew their licenses. I would hope that you would let them know at this time that if they are going to air political programming that favors one side in this election, they are obligated to give equal time to all other sides.
Thank you.
